THIS WEEK'S TREND

INCREDIBLE EDIBLES

Beauty has become way more than skin deep thanks to the recent crop of drinks, snacks and pills that you can ingest. Whether you want to blitz your cellulite, hydrate your skin or just nibble on something that's good for you, beauty companies have got you covered. While we can't say that the pounds have fallen off, it does feel a little healthier than our usual 4 p.m. venti eggnog latte fix!
